SUMMARY

Computer Programming & Analysis student at Fanshawe College with a 4.12 GPA, transitioning into software development from a background in healthcare. Hands-on experience building and deploying full-stack web applications and data analytics applications using Java, Python, JavaScript, REST APIs, and PostgreSQL. Brings strong communication, problem-solving, and adaptability developed through years of professional experience in fast-paced environments.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C#, SQL, HTML, CSS

Frameworks & Libraries: Javalin, Streamlit, Pandas, Plotly

Databases: PostgreSQL, Supabase

Tools & Platforms: Git, GitHub, GitHub Pages, Docker, Render, VS Code, Maven

Concepts: REST APIs, Object-Oriented Programming, Database Design, Responsive Web Design

Authentication & Security: BCrypt, PIN authentication

PROJECTS

Movie Club App | Full-Stack Web Application — Aug 2026 — [GitHub](#) | [Live Demo](#)

- Built a full-stack web app for a private movie club using Java and Javalin for a REST API backend with 19 endpoints, PostgreSQL via Supabase across five relational tables for persistent data storage, and vanilla HTML/CSS/JavaScript for the frontend
- Implemented BCrypt PIN authentication supporting five member accounts, TMDB API integration for movie search, and a database-driven pick order rotation system
- Deployed the backend to Render using Docker and the frontend to GitHub Pages, with a mobile-first responsive design installable as a home screen app on iOS and Android

Fantasy Football Evaluator | Python Data Analytics Application — Jun 2026 — [GitHub](#) | [Live Demo](#)

- Developed a multi-page Streamlit app analyzing three seasons of NFL data across 861 skill-position players (QB, RB, WR, TE) using nflreadpy, calculating custom PPR fantasy scores and player consistency grades using coefficient of variation
- Built interactive player profiles with Plotly charts, season-by-season stat tables, injury history analysis, and positional draft rankings with a file-based caching system that eliminates redundant API calls for up to 24 hours during the active season and 7 days in the offseason

Pokéwordle | Browser-Based Game — May 2026 — [GitHub](#) | [Live Demo](#)

- Created a Pokémon-themed Wordle game using vanilla JavaScript and the PokeAPI, featuring a progressive hint system with five hint tiers, daily mode with streak tracking, and a free play mode covering all 1,025 Pokémon

EDUCATION

Computer Programming & Analysis (Co-op)

Fanshawe College — London, ON *January 2024 — December 2026 (Expected)*

- Cumulative GPA: 4.12 across five semesters
- Coursework: Object-Oriented Programming, Database Management, Software Development, Data Structures and Algorithms

Ontario College Advanced Diploma — Respiratory Therapy

Fanshawe College — London, ON *September 2015 — August 2018*

- Developed expertise in clinical assessment, patient care, and applying respiratory therapies in hospital and home care settings

Honours Specialization in History

Huron University College at Western University — London, ON *September 2010 — October 2014*

- Developed strong research, analytical writing, and critical thinking skills through rigorous academic study

EXPERIENCE

Registered Respiratory Therapist | ProResp — London, ON

August 2019 — December 2023

- Managed a complex patient caseload in a fast-paced environment, prioritizing competing needs and solving problems under pressure
- Collaborated with interdisciplinary teams including nursing, physiotherapy, and administration to coordinate patient care and communicate effectively across multiple stakeholders
- Mentored junior staff and students, providing guidance on clinical procedures, equipment, and best practices
- Led training sessions for patient support staff on respiratory equipment and chronic condition management to improve patient support and continuity of care

Registered Respiratory Therapist | Complete Respiratory Care — Vaughan, ON

August 2018 — August 2019

- Conducted in-home and in-office patient assessments across a broad territory from downtown Toronto to Hamilton, independently managing scheduling, time, and logistics
- Navigated Ontario healthcare funding programs to secure patient access to necessary respiratory treatments and equipment

Sales Associate | Mastermind Toys — London, ON | 2011-2018

- Provided customer service while balancing part-time employment with a full academic course load.
